

## Aqueduct Primary School Curriculum Statement

### *Curriculum Intent*

*Aqueduct offers a broad and balanced curriculum which progresses throughout the pupil's journey with us. Our curriculum is underpinned by the teaching of basic skills, knowledge, concepts, and values while promoting creativity. We encourage pupils to celebrate and develop their individual talents, recognise everyone as unique with their own ambitions, skills, and dreams. We strive for our pupils to have a lifelong love of learning and an understanding of the world around them.*

### *Curriculum Implementation*

*Our curriculum focuses on theme based and outcome led learning, weaving all subjects through a cross-curricular approach. It is delivered through a variety of learning styles and memorable experiences to develop knowledge and skills and provide opportunities outside of their everyday life. Through reflections and discussions, children are encouraged to communicate what they have learned and what they can remember.*

### *Curriculum Impact*

*We have collaboratively built a curriculum that is accessible to all learners, creating a diverse and inclusive school community. At the core of this, we strive to inspire children to want to learn and for teachers to be excited to teach. Aqueduct's ethos and values are deeply rooted in our curriculum provision so that children leave the school as a good citizen in the community and are able to encourage others to follow their example. Children are provided with a variety of opportunities to find their individual talent and their own greatness.*

*Overall, we want all children to continue to build tomorrow and lead the way...*
