

What we have been up to over the years...

Over the years, the School Councillors at Aqueduct have been apart of many, amazing projects and events...
Take a look to see what we have been up to!

Our Projects/ Events

Emergency Defibrillator...

The School Councillors most recent project was to help raise money for an emergency defibrillator for the community. The children raised money by selling toast every Tuesday and Thursday. The children posted persuasive letters to local companies asking for their help. As of the 17th September 2021, the defibrillator was fitted. A Special Thank-you to Dawley Parish Council, who have kindly given us the £611 shortfall that school had originally agreed to cover so that it could finally be purchased and fitted. **(September 2021)**

Aqueduct Plaque...

The School Council received the actual 'Aqueduct Plaque' for safe keeping whilst the Aqueduct is being repaired. School Governor Kate Barnes presented it to the children. We are very proud to have the plaque as we do lots of learning about our local history. Look out for it! **(July 2021)**

Litter picking around the community...

After seeing reports of lots of litter in our local area, the school council spent some time around the community collecting as much as we could! They were so proud to be able to contribute to keeping the local area clean and tidy but shocked at how much litter was around! **(June, 2021)**

- Class Councillors were given certificates from The Iron Bridge Works for collecting bottle tops for recycling. We were able to discuss the importance of recycling and managed to fill a huge, metal giraffe full of plastic bottle tops. **(2019/2020)**

- We worked with the Friends of Aqueduct Primary School (FOAPS) to choose some new playground equipment. We voted for the Adventure Trail and discussed why we think it's important to have it on our playground. **(2018/2019)**
