Spring term 2 2023—2024

A message from the teacher

WOW! Where did that term go? We worked extremely hard in all areas of the curriculum and continued to show how we are knowing and remembering more.

This half term we are focusing on the school value learning. With this in mind the children have started their new half term by defining the word learning and writing examples of how we could we demonstrate being good learners at school.

Our Learning This Half Term

We have lots of wonderful new learning for this half term that we are excited to share with the children.

In geography, we are learning about the Poles, Hemisphere and equators. Starting with the what the equator is and leading to exploring the significance of time zones.

In Science, we are beginning to learn about Plants. The children will be taking part in a variety of experiments and observations on how plants grow, the parts of a plant and the dispersal of seeds.

Do keep an eye on Class Dojo for posts about what your children have been getting up to this half term!

Important Reminders

Our P.E days are Monday and Tuesday. Children are to come into school in their PE kits on these days. Trainers are allowed to be worn on PE days only.

Home experiences

Remember to keep checking the school website and class dojo for your suggested home experience! I love seeing anything and everything you get up to at home. This doesn't have to be our suggestion given, this could be anything exciting that you get up to at home. Please share photos for us to share in class.

Useful Links and Websites!

Purple Mash— on this website the children will be able to take part in a range of games, activities and coding sessions -
